

Venue Services

A Partnership that Pays Out

Hand in Hand We Will Make Your Location Fit for the Future and for Unique Events

Services for Operators of Locations

- You can concentrate on your core business.
- You benefit from our first-class pool of material and the addition of new equipment.
- You can rely on innovative and cost-conscious realisation of technical solutions.
- Thanks to our extensive network of sites, you benefit from the marketing of your location throughout Germany.

Services for Renters of Locations

- We will take care of the technical side of things and ensure the best possible realisation of your ideas.
- We are perfectly familiar with the location, the room acoustics, the suspension points, the power supply and all of the other technical features.
- We ensure stable IT networks and communication technology with our ICT department – and even offer remote servicing.
- We guarantee smooth-running live events.

- customised additions to basic equipment for each event
- servicing and maintenance

- investment in equipment
- purchase / long-term rental / pay-per-use models

100% N&M Quality

- A permanent team relieves you of all of the tasks involved in controlling, repairing and maintaining the building's in-house technical systems- incl. planning of any necessary activities as well as carrying out and documenting statutory periodic maintenance.
- We minimise the amount of logistics and personnel involved. Set-up and dismantling times are reduced, and you can utilise your venue effectively.
- We master all technical challenges: from contact with the building authorities and other regulatory bodies through to the creation of seating plans in accordance with building ordinances and drawing up escape and rescue plans.
