5 GOOD REASONS TO WORK WITH US

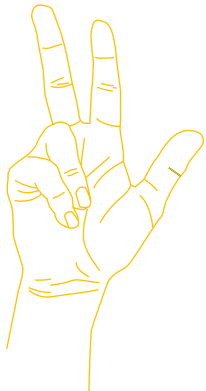

STATE-OF-THE-ART EVENT TECHNOLOGY FROM A TO Z

Whether Audio, Lighting and Video, Conferencing or Event IT: we have one of the largest and most modern material pools in Germany, which means we can always provide you with exactly the right equipment. Don't be afraid to think big. We can make anything possible.

OUR CREWS HAVE EVERYTHING COVERED

We will provide you with a fixed team of experienced project managers, technical designers and technicians to complement your existing team with their professional experience – they will help to install equipment, make sure your live events go off without a hitch and ensure compliance with maintenance cycles. As a result, you will be able to free up personnel resources and do away with the lengthy job of finding skilled employees.

EVERY CONCEIVABLE TYPE OF EVENT FORMAT

On site, hybrid, digital? We can handle everything. Being experts in hybrid formats and Digital Live Events, we can help you to broaden your range to meet future demands. You will be able to switch formats at short notice and be equipped for whatever eventualities may arise.

PERFECTLY EQUIPPED FOR THE FUTURE

We will assist you in analysing your current equipment and identifying potential energy savings. We will also advise you on your modernisation plans and help when investment budgets are tight. Together we will put your venue on the road to success.

MINIMUM INVESTMENT RISK

Why buy something you are only going to need from time to time? We can offer you attractive solutions for all budgets – from long-term rental of first-class equipment through to pay-per-use models.

WHAT WE OFFER

OUR PRODUCT PORTFOLIO

CORPORATE STUDIO SERVICE

Installation, operation and maintenance of a multimedia studio exclusively for you and on your company's premises.

VENUE STUDIO SERVICE

Installation, operation and maintenance of a multimedia studio exclusively for you and on site at a venue.

EXCLUSIVE EVENT LOCATION PARTNER

Exclusive partnership for running the technical side of events at your venue. Equipment can be installed on a permanent, semi-permanent or temporary basis.

PREFERRED EVENT LOCATION PARTNER

Preferred partnership for running the technical side of events at your venue on a temporary basis.

VENUE ON SITE SERVICE

Technical operation of media equipment at your venue. N&M can rent out or sell equipment as well as operate any existing third-party equipment.

CONSULTING & CONCEPT

Consulting and conceptual design services to help you equip, design, operate and market your venue.

TURNING IDEAS INTO REALITY

We will work with you through several project phases to draw up a roadmap for turning your ideas into reality.
